BEAM & BLOOM

— SKIN AESTHETICS AND PMU —

Welcome

Founded in 2015, Beam and Bloom was created from Baiba's passion for helping people feel confident in their own skin. Based in Dartford, Baiba has built her business around the belief that beauty treatments should feel personal, empowering, and completely tailored to each individual.

Trained in Permanent Makeup (PMU), facial skin boosters, laser hair removal, laser tattoo removal, and Fractional CO2 resurfacing, Baiba combines advanced aesthetic expertise with a gentle, artistic touch to deliver natural, confidence-enhancing results.

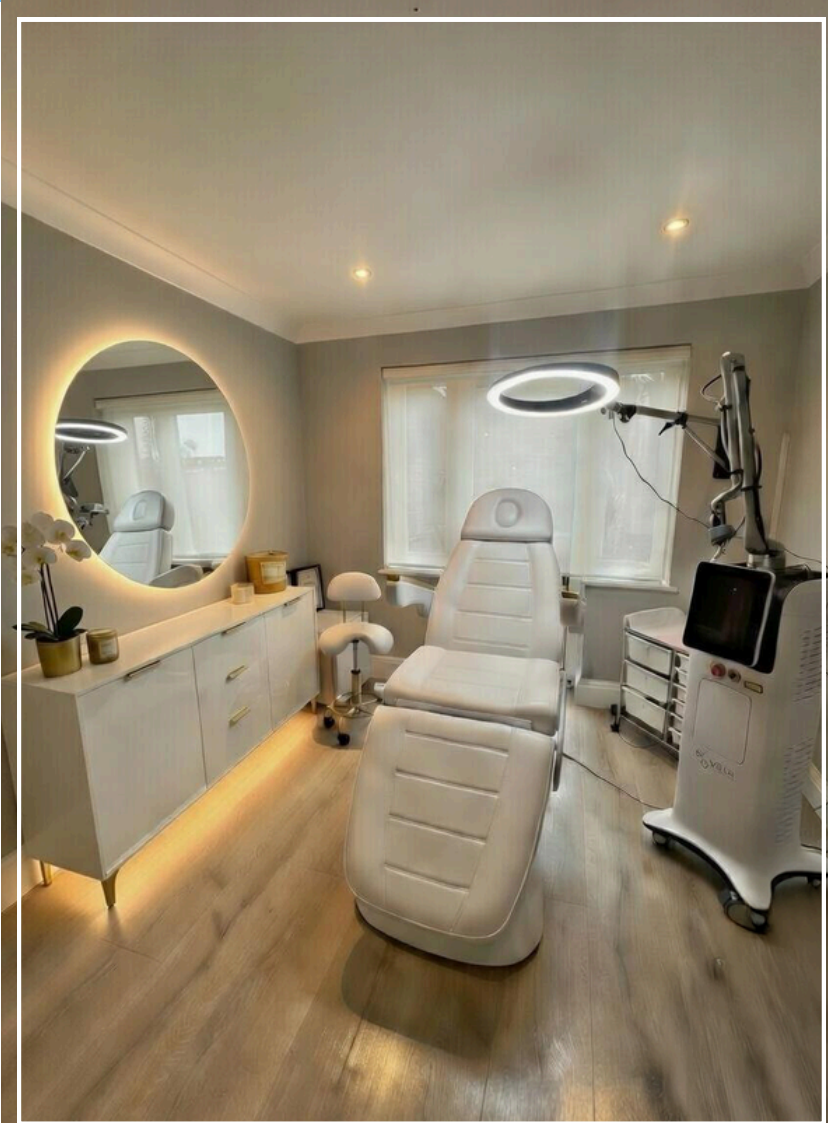

At Beam and Bloom, every journey begins with a conversation. Baiba has created a warm, welcoming space where clients feel comfortable, listened to, and supported from consultation through to aftercare. Her commitment to ongoing training and modern, clinically proven treatments ensures safe, effective results, with many clients returning not just for the treatments, but for the trust and care they experience.

Beam and Bloom isn't just about aesthetics, it's about helping you beam with confidence and bloom into your best self.

LASER HAIR REMOVAL

DIODE LASER HAIR REMOVAL FOR WOMEN

Our advanced Diode Laser Hair Removal treatment provides safe, effective, long-term hair reduction for a wide range of skin tones, including tanned skin. The laser gently targets the hair follicle to reduce future growth, leaving skin smoother and free from irritation caused by shaving or waxing.

With a built-in cooling system for added comfort, treatments are quick, safe, and far more comfortable than traditional methods. Suitable for areas such as the face, underarms, bikini, and legs, it's one of our most popular treatments at Beam and Bloom for achieving lasting, confidence-boosting results.

POPULAR COMBOS	SINGLE	THREE	SIX
Underarms & full bikini	£60	£160	£300
Lower legs, underarms & full bikini	£140	£375	£675

Full legs (inc. feet & toes)	£80	£210	£1400

WHAT YOU NEED TO KNOW FOR THIS TREATMENT

For best results, we recommend a minimum of 6-8 treatments spaced 4-6 weeks apart.

Shave 24 hours before treatment

No exercise for 24 hours

No sauna or steam for 24 hours

No sun, fake tan, UV light for 2 weeks pre or post treatment

No active ingredients or perfumed products for 48-72 hours

3D VJUVE™ FRACTIONAL CO2 LASER

Advanced skin resurfacing to smooth scars, refine texture, restore tone and dramatically rejuvenate damaged skin.

Fractional CO₂ laser is an ablative resurfacing treatment that uses carbon dioxide laser energy to create thousands of tiny, controlled micro-channels in the skin.

Rather than treating the entire surface, it works in a fractional pattern, meaning small columns of skin are treated while the surrounding tissue remains intact. This allows for:

- Faster healing
- Reduced downtime compared to traditional full resurfacing
- Powerful collagen stimulation

The laser energy precisely removes damaged outer layers of skin while heating the deeper dermis. This triggers the body's natural healing response, stimulating new collagen and elastin production, resulting in firmer, smoother, more even skin over time.

No exercise for 24 hours

No active ingredients or retinoid products for 7-10 days

No sauna or steam for 24 hours

Minimal downtime

No sun, fake tan, UV light for 2 weeks pre or post treatment

AREA	SINGLE	THREE	SIX
Half face or Neck	£200	£500	£900
Full face	£350	£800	£1600
Full face & neck	£500	£1275	£2200
Stretch Marks (starting from)	£200- £400	£500- £1000	£1500- £2000
Decolletage	£250	£675	£1,050

For best results, we recommend a minimum of 3-6 treatments spaced 4-8 weeks apart.

3D VJUVE™ FRACTIONAL CO2 LASER

This fractional laser treatment effectively improves fine lines, wrinkles, dyschromia, pigmented lesions, textural irregularities, scarring, stretch marks and skin laxity. It also reduces pore size and enhances overall skin tone and quality.

Treatment Areas: Face and body.

PERMANENT MAKE UP (Brows • Lips • Eyeliner)

Enhances natural features, improves symmetry, and creates long-lasting definition for brows, lips and eyes.

Permanent Make Up is a cosmetic tattooing treatment designed to subtly enhance your natural beauty. Using advanced digital pigmentation techniques, carefully selected pigments are implanted into the upper layers of the skin to create soft, natural-looking results tailored to your features.

Each treatment is fully customised. We begin with a detailed consultation, mapping and pre-draw to ensure shape, colour and definition perfectly suit your face. Whether you prefer a soft, powder brow, fuller-looking lips, or defined eyeliner, the result is effortless beauty that lasts. Over time, the pigment naturally softens, allowing adjustments to shape or colour at future top-ups. Treatments are performed with precision and care to ensure comfort, symmetry and beautiful healed results.

For best results, a top-up is recommended 4–6 weeks after your initial treatment.

AREA	SINGLE	ANNUAL COLOUR BOOST
Powder/ Ombre Brows	£270	£150
Lip Blush	£270	£150
Lash Enhancement	£200	£120

Keep the area dry for 7–10 days

No sauna, steam or intense exercise for 7 days

Avoid sun exposure and tanning during healing

Avoid makeup on the treated area during healing

Minimal downtime

Final results visible once fully healed (4–6 weeks)

LASER TATTOO REMOVAL

ND:YAG Laser Technology

We use advanced Q-Switched ND:YAG laser technology to safely break down unwanted tattoo ink and semi-permanent makeup.

The 1064nm wavelength effectively targets darker inks such as black and blue, while the 532nm wavelength treats red and warmer tones. The laser energy shatters ink particles beneath the skin, allowing the body to naturally eliminate them over time.

Safe, precise and suitable for most skin types.

No exercise for 48 hours

No sauna or steam for 7 days

No sun, fake tan, UV light for 2 weeks pre or post treatment

No active ingredients or retinoid products for 2 weeks

2-4 weeks of healing

For best results, we recommend 8-10 treatments spaced 6-8 weeks apart.

AREA	SINGLE	THREE	SIX	NINE
Eyebrows	£80			
Extra small (up to 3cm)	£30	£81	£153	£216
Small (4-6cm)	£50	£135	£255	£360
Medium (7-9cm)	£100	£270	£510	£720
Large (10-12cm)	£150	£405	£765	£1080
<13cm price upon consultation	POA	POA	POA	POA

ADVANCED CARBON LASER FACIAL

The Carbon Facial, also known as the “Hollywood Peel,” is a deep-cleansing laser treatment designed to refresh, brighten and rejuvenate the skin.

A thin layer of medical-grade carbon is applied to the skin, absorbing oil, impurities and dead skin cells. A specialised laser is then used to gently heat and remove the carbon, exfoliating the skin while stimulating collagen production.

This treatment helps to:

- Reduce enlarged pores
- Control excess oil
- Improve acne and congestion
- Brighten dull skin
- Smooth fine lines and uneven texture

The Carbon Facial is quick, comfortable and requires minimal downtime, making it ideal before events or as part of a regular skin maintenance routine.

For best results, we recommend a course of 3–5 treatments spaced 2–4 weeks apart.

AREA	SINGLE	THREE	FIVE
------	--------	-------	------

Full face	£50	£135	£225
-----------	-----	------	------

Avoid direct sun exposure for 1–2 weeks

No active ingredients or retinols for 5–7 days

Use SPF daily

Minimal downtime
